***Election/Restrictions***

1. Claims 5, 12, 13, 23, 26, 28, 39, 44, 46, 54, and 55 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 12/20/05.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 6-11, 57, 59, 60, and 61 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Pavesi (5987781).

4. Claims 1-3, 6, 7, 9-11, 14-21, 24, 25, 27, 29-34, 37, 38, 40-43, 45, 47-53 and 56-63 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Frachey (5092060) or Chee (5918383).

5. Claims 1-3, 6-11, 16-19, 21, 24, 25, 27, 30, 31, 33, 34, 37, 38, 40-43, 45, 47-49, 51-54, 56-59, and 61-63 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Donzis (4874640).

***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3728

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 14-22, 24, 25, 27, 29-38, 40-43, 45, 47-53, 56, 58, 62, and 63 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pavesi in view of either Frachey or Chee.

Pavesi shows a shoe and method of making the shoe comprising a sealed barrier (11), a foam member (14) bonded to some of the sides of the barrier (column 4 lines 18-22), and a fluid (air) substantially as claimed except for the material for the barrier. Frachey or Chee teaches the well known and conventional use of polyurethane for barrier elements in footwear. It would have been obvious to use polyurethane as taught by Frachey or Chee for the barrier in the shoe and method of Pavesi to provide a durable, inexpensive, and easy to assemble barrier.
